## GET CONSENT OF OWNERS

Before Spur Track Can Be Built  
Along a Lane

At the meeting of the city council last week permission was granted the lumber firms of Cushing Bros. and D. R. Fraser to build a spur line from the C. N. R. through the lane in the rear of Namayo avenue to their plant g miles and lumber yards. The permission was granted with the same condition as the request from the A. McDonald Co. for a similar privilege, the condition being that the consent be secured of the property owners on both sides of the lane.

Several residents and property owners on the avenue and side streets whose property touches the lane are protesting against the building of the spur line through the lane. The chief objection raised is that the spur will decrease the value of the residential property and endanger the lives of the small children whose parents reside in that vicinity and be an inconvenience to residents of the vicinity.

The C. N. R. crosses Namayo at Clark street and the spur line would traverse a distance of four blocks to reach the yards of Cushing Bros. The majority of the property along the route is residential. Owners of two or three business properties on Namayo have signified their willingness to have the spur built, but other owners, chiefly of residential property, are protesting.

A rumor was afloat yesterday that the lumber firms had purchased the property adjacent to the east side of the lane, and would build the spur on that property.

A Bulletin representative visited the offices of Cushing Bros. and D. R. Fraser, yesterday and was informed that such was not their intention. Nothing had as yet been done, however, towards securing the consent of the property owners for the use of the lane.

## EDMONTON MEN ON THE RANGES

Edmonton Riflemen Figured Among the Prize Winners in Calgary Yesterday

Calgary, July 17.—Over fifty riflemen from various parts of Saskatchewan and Alberta are taking part in the annual matches of the Territorial Rifle Association. The range was opened on Monday afternoon for practice at the 500, 900 and 1000 yard ranges, when several of the Edmonton Association of whom there are seven members attending the matches, succeeded in putting on very fair scores. The matches opened this morning with the Alberta, seven rounds at 200, and 600 yards, which was won by F. B. Fisher, Revelstoke, B.C., with a score of 60 points; G. A. Reid of Edmonton, was second with 58 points. Messrs. Bissell, Carmichael, McElliott and Pierce of the Edmonton Association also appear in the prize lists. In the afternoon the "Corporation of Calgary" match, seven shots at 200, 500 and 600 yards was shot and won by Sergt.-Major Gage of High River, with a score of 94 points; A. Martin of Calgary, was second with 93, and Sergt.-Major Belcher, Calgary, with 91 points. Messrs. Carmichael, Bissell, Reid, Weeks and Pierce of Edmonton, figured on the prize list. The team match shot concurrently with the above was won by the R. N. W. M. P. team, captained by Staff Sergeant Brankley. The ammunition furnished is very poor, occasionally very weak cartridges giving some of the best shots misses even at 200 yards.

DEAF AND DUMB D ELISTS  
(Special to the Bulletin)  
Geneva, July 17.—Two duelists, both deaf and dumb, with seconds similarly afflicted, met at Como. All were masked. At twenty-five paces the duelists fired three shots. One combatant fell dead.

## CITY COUNCIL MET LAST NIGHT

Resume of Routine Business Put Through by Aldermen

The city council met last night with Ald. Picard presiding. Mayor May was not yet returned to the city.

Those present were Ald. Griesbach, Latta, Calhoun, Bellamy, Manson and Mays; Commissioners Kinnaid and Hargraves; City Engineer Keely, City Solicitor Beck, and Mr. Collings.

A letter was read from the secretary of the Board of Trade urging upon the council the necessity of securing, as soon as possible, a suitable area within the city for the location of factory sites.

Mr. A. T. Cushing, president of the Edmonton Board of Trade, addressed the council in support of the plea of the communication. He pointed out that the present prices of property were almost prohibitive to any but the most wealthy investors and that money locked up in land was unproductive to the community. Factories are necessary to the permanence and future of the city. If the city had control over such an area there would be less difficulty in securing sewerage and railway facilities so necessary in establishing factories in these days.

The communication was received and read, and the secretary was ordered to advise the Board of Trade that the council had such a project under consideration and were willing to co-operate with them.

A committee has already been appointed by the council to inquire into the location of a suitable area for factory sites.

Mr. G. Koermann appeared before the council to ask for extension of time to remove his buildings on Namayo avenue, which project eighteen inches upon the street allowance. It forced to do so at once it would entail considerable financial loss to him and other property owners beside him who were in a similar position.

After considerable discussion it was decided on the amendment of Ald. Griesbach that the interested property holders state their case in writing to the city solicitor and the commissioners and that a report be handed in at the next meeting of the council.

A delegation of several raters from the vicinity of Government and Syndicate avenue appeared to state their grievances against piggeries and slaughter houses in that neighborhood. Yesterday afternoon it was stated there were seventeen pigs at Rich and Moss' slaughter house and a dead pig had lain in the gutter for two weeks. Two of the gentlemen present had lost the sale of several lots because of this nuisance, and stated that that section of the city was becoming uninhabitable.

The reply of the council was that the matter was in the courts. Similar matters were up for consideration at the former meeting and the council decided on that occasion to not interfere with the action of the courts.

Several communications were read and disposed of.

One was from Wm. Humberstone re his coal property. The matter was referred to the commissioners and the secretary will instruct Humberstone's solicitors the council are considering his offer.

The secretary submitted a letter from the Cushing Lumber Co. and Ed-

## WILL APPEAL TO FORCE

Czar Declines to Grant Reforms and the Situation is Desperate

St. Petersburg, July 18.—The same crisis in the affairs of the Russian nation is impending and within a fortnight at most events must transpire that will result either in a perpetuation of absolutism in Russia or the map of Europe will be changed. The Czar after weeks of swinging from one extreme to the other decided that he cannot grant reforms demanded by the people, and has decided that the arbitrament of physical force shall be appealed to. He has through Generals Treppoff, Kaufhau and other leaders of the official military class canvassed the officers of the army and decided they can be depended on if it should come to a clash with the people and so he has decided that from now on the wishes of the Czar and these alone shall be consulted. This means that the rumors are true that the Duma will be dissolved and a new cabinet chosen with a score of 94 points; A. Martin of Calgary, was second with 93, and Sergt.-Major Belcher, Calgary, with 91 points. Messrs. Carmichael, Bissell, Reid, Weeks and Pierce of Edmonton, figured on the prize list. The team match shot concurrently with the above was won by the R. N. W. M. P. team, captained by Staff Sergeant Brankley. The ammunition furnished is very poor, occasionally very weak cartridges giving some of the best shots misses even at 200 yards.

The communication was received and read, and the secretary was ordered to advise the Board of Trade that the council had such a project under consideration and were willing to co-operate with them.

## KING CANNOT VISIT CANADA

Pressure of Business Prevents Acceptance of Invitation

Ottawa, July 18.—Lord Grey received a cable today from Lord Elgin in reply to a despatch of May last forwarding an address of both Houses of Parliament, inviting the King and Queen to visit Canada. In the first place Lord Elgin in reply says that on account of the continuous and incessant business of the empire, this imposes a heavy tax on the time and strength of the sovereign and absence from Britain for any length of time is difficult. In the second place there is no limit to the distance to be travelled to reach all parts of the empire and it would be difficult for the King to visit one part and decline to visit others. After referring to the pleasures it would be for the King and Queen to visit Canada the despatch says "I am to say that the King feels unable at present to entertain the idea of a journey to Canada which is not in any way due to a lack of appreciation of the loyalty and devotion of the people of Canada."

A letter from Judge Harvey also stated that it was a public investigation the fees of Dr. McGibbon's counsel should be paid by the city an recommended that \$250 be the amount allowed.

Seen this morning Secretary Kinnaid did not feel at liberty to give out the report for verbatim publication without instructions or permission from the council.

The learned judge goes somewhat exhaustively into the evidence. Referring to the tent that was used for the housing of the patients he says, "it was absolutely unfit for the purposes for which it was used," and that the dangers existing to a scarlet fever patient through inadequate housing facilities existed in connection with the scarlet fever tent. He observes: "The city is bound to provide a place of reasonable comfort," for such uses, and further declares "the appliances and equipment of the isolation tent were crude and insufficient." It is clear from the evidence that Dr. Braithwaite made frequent recom-

mendations to have proper hospital accommodations provided which were persistently disregarded.

Continuing the judge finds that "none of the nurses were negligent,"

but did all they could with the means supplied. Mr. Main did all he could but was unable to do two men's work and showed neither "incompetence or negligence." Merkley and Sullivan were qualified nurses though the others were not, yet it was never claimed they were competent or qualified. Sullivan was "qualified by training and education but unfit by habits of life," though it is nowhere proved the boy Asher suffered in any way from Sullivan's irregularity. "No serious injury was done to the patient," are the words used.

## City News

**GRAND LODGE MEETS HERE**  
On August 7th the I.O.O.F. Grand Lodge of Alberta will meet in Edmonton. Active preparations are in progress for the entertainment of visiting brothers of which there will be about 100. A banquet will be given on the evening of the 7th. On the follow evening the Grand Encampment, as constituted, J. I. Mills is presiding officer of Edmonton lodge and Alex May is D.G.M. of Alberta.

### OFFERS CITY A COAL MINE

At the city council last night a offer was made to the city by Short Cross and Biggar on behalf of William Humberstone of the mining rights on lots 12 and 14 along the river front for \$10,000. It was stated that there were two seams of coal 8 feet deep, depths of 240 and 260 feet.

### DELIGHTED WITH THE WEST

William Henry Hunter, and wife of Orangeville, Ont., and ex-Mayor F. J. Marshall and wife and family, of Orangeville, arrived in the city yesterday and are guests at the Alberta. W. B. Marshall, of Medicine Hat, brother of ex-Mayor Marshall, is also with the party, who are touring the west on a pleasure trip, having spent some time at Medicine Hat. Mr. Hunter is the owner of one of the largest and most beautiful farms in Ontario and is well-known throughout the province. Mr. Marshall is the proprietor of a large hardware business in Orangeville. Both these gentlemen have visited the Edmonton district before and are surprised at the changes that have taken place. Mr. Marshall said he had always thought that Edmonton would be a big place, and it is growing wonderfully. They will also visit Vegreville and Vermilion during the week.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. of amount of the tender, which will be forfeited if the party tendering declines to enter into a contract, when called upon to do so, or if he fails to complete the work contracted for. If the tenderer does not hold the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order, **FRED GELINAS**, Secretary.

Department of Public Works, Ottawa, July 5, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

**DEFECTIVE CONCRETE WALKS**  
A number of citizens of Edmonton have been wondering why it was necessary to tear up the new cement walks last week on Jasper Avenue. The reason will be found in the report of the city engineer to the city council last night. The report is as follows:

"There is at the present time about 75 per cent of the walks in which no serious faults have developed, but judging from the fact that 25 per cent has failed in one year, it is reasonable to expect that these failures will develop more rapidly as the walks become older, therefore in a few years the walk will be in such a shape as to require rebuilding to a more or less extent."

"I have gone over the walk carefully and examined each block, counting the number of blocks that had been damaged, and comparing them with the total number, which gives me 25 per cent bad."

In some places the top surface will not cemented to the concrete base.

In a great many cases the top surface will become broken and displaced.

"The result of my investigation is that the result of my investigation is that the contractor is responsible for the work with sufficient faults to indicate that it must be replaced in the near future, and I estimate that 75 per cent of the walks will develop such failures in the next few years."

The commissioners report on the matter as follows:

"The commissioners considered the application of Mr. W. J. Carter that the city provide material for repair of defective walks embraced in last year's contract."

"The commissioners consider that the contractor is responsible for the defective workmanship. The work was very much hurried, so that the Main street of the city would present an improved appearance on the occasion of the provincial inauguration ceremony. For this reason and the absence of any complete system of testing and inspection, we consider the contractor's liability should be shared by the city, and we therefore recommend that the city provide the necessary cement for effecting the necessary repairs, it being understood the work be proceeded with at once."

The commissioners report on the matter as follows:

"The commissioners, for an ideal 320 acre farm, near Edmonton, small payment and easy terms.

We have choice improved and unimproved farms in Stony Plain, Spruce Grove, Ray, Riviere du Quie Barre, Agricola, Clover Bar, Fort Saskatchewan, Rabbit Hills, Namao, Vermilion Valley, from \$12.00 to \$20.00 per acre, improved lands, and from \$6.25 per acre to \$10.00 per acre, unimproved lands.

Mr. F. E. Carroll,

Lady Principal

**SEALED TENDERS** addressed to the undersigned, and endorsed "Tender for Supplying Coal for the Dominion Buildings," will be received at this office until Thursday, August 16, 1906, inclusively, for the supply of Coal for the Public Buildings throughout the Dominion.

Combined specification and form of tender can be obtained on application at this office.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. of amount of the tender, which will be forfeited if the party tendering declines to enter into a contract, when called upon to do so, or if he fails to complete the work contracted for. If the tenderer does not hold the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

**FRED GELINAS**,

Secretary.

Department of Public Works,

Ottawa, July 5, 1906.

Newspapers inserting this advertisement without authority from the Department will not be paid for it.

**SEALED TENDERS** addressed to the undersigned, and endorsed "Tender for Post Office, Fernie, B.C." will be received at this office until Saturday, August 4, 1906, inclusively, for the construction of a Post Office, &c., &c.

Plans and specification can be seen and forms of tender obtained at this Department and on application to Robert A. Kerr, Esq., Clerk of Works, Fernie, B.C.

Persons tendering are notified that tenders will not be considered unless made on the printed form supplied, and signed with their actual signatures.

Each tender must be accompanied by an accepted cheque on a chartered bank, made payable to the order of the Honourable the Minister of Public Works, equal to ten per cent. (10 p.c.) of the amount of the tender, which will be forfeited if the party tendering declines to enter into a contract when called upon to do so, or if he fails to complete the work contracted for. If the tenderer does not hold the cheque will be returned.

The Department does not bind itself to accept the lowest or any tender.

By order,

**FRED GELINAS**,

Secretary.

## Telegraphic

OCTOGENARIAN IMMIGRANT  
Minette, Man., July 16.—Among the arrivals here this week was Alex. Yellowless, who celebrated his eightieth birthday on the ocean. For 57 years he carried on a hardware business in Bank street, Galashiels, Scotland, but growing tired of the life decided to come to Canada, and it is his intention to work up a similar business in this town. In Scotland he has several brothers and sisters who have passed their eightieth birthday and are all Hale and hearty. At this town Mr. Yellowless has two sons and a grandson in business and they were greatly surprised at their aged relative's arrival.

### INDIAN CENSUS WILL ALSO BE TAKEN

Winnipeg, Man., July 16.—To make the census of Manitoba, Alberta and Saskatchewan more complete, E. H. St. Denis, census commissioner, is arranging for a count of the Indians within the confines of the three provinces. Fortunately the paying of Indian treaties is about to commence, thus making the work possible for all other times these original owners of the Canadian west are scattered all over the country on hunting and fishing trips, making it impossible to locate them. It is expected the work of enumerating the white people in the west will be completed within a couple of weeks.

### VERGIN KILLS THE RUMOR

Yorkton, Sask., July 16.—A statement signed by Peter Vergin, leader of the Doukhobors, is being sent broadcast over the country announcing he is not the real owner of the Doukhobor lands, stock and implements. In part the statement reads as follows: "At the present time and for some time past there have been many legal documents—as, for instance, agreements for sale or purchase of lands and farm outfit—made in my name. In consequence of this there has arisen an unfounded belief that I, who am living in the Doukhobor country, am trying to get this property as mine personally. I solemnly declare that all such lands and outfit purchased from the People's Fund belong to the community and cannot be divided by myself or any other party as long as the community exists. This statement must be regarded as my official renunciation from all rights of title to property in the Doukhobor community.

### DOUKHOBORS MAY CAUSE MORE TROUBLE

(Special to the Bulletin)  
Yorkton, Sask., July 16.—Last spring a number of Doukhobors arrived in town and announced that they would not go back to their homesteads in fact they would let their right to them elapse. At some of these homesteads were the best to be obtained anywhere in Western Canada a number of squatters took possession of them and while waiting the cancellation of the Doukhobors' rights they planted crops and generally improved the homesteads. At first the Douks raised no objections and jokingly remarked they would return to reap the crops at the proper time. At first this was not taken seriously, but now it is learned that the Douks are preparing to carry out their threats.

### PHENOMINAL WHEAT CROP IN CANADIAN NORTHWEST

(Special to the Bulletin)  
Winnipeg, July 16.—During the next weeks harvesting the wheat crop of the Canadian Northwest will begin, although cutting will not be general before the end of the month. Never before in the history of the country have conditions been more ideal and carefully compiled reports from various portions of the wheat belt have led to a number of estimates which range from 110,000,000 to 150,000,000 bushels of wheat. From the day the seed was planted the weather could not have been more suitable for heavy crops even had the farmers ordered the weather themselves. Dry weather for the seeding was followed by warm rains and hot days while the seed was germinating and since then the rain has fallen in plenty during the nights while the days have been excessively hot until the crops have grown as though they were in some huge hotbed. In some localities the wheat has already begun to color and is exceptionally heavy and strong. Last year a field that threshed 60 bushels to the acre was an exception, but this year fields will be plentiful and the general average of the Canadian West will be over twenty-five bushels to the acre. C. E. McPheerson of the C.P.R. states according to agents' reports over a million acres of breaking has been done this summer already so the average under crop next year will be double that of 1895.

### MUCH RAILROAD CONSTRUCTION IN WESTERN CANADA

IN WESTERN CANADA  
(Special to the Bulletin)  
Winnipeg, July 16.—It is estimated that during the present summer fully 5,000 miles of new railroads will be built between the Great Lakes and the Rocky Mountains. Every company operating within his territory is actively engaged in building new branches or main lines. Never before was such great railroad activity witnessed in any country and the prospects are the new mileage laid during 1897 will be still greater. The Canadian Pacific is now

building no less than nineteen new lines and the Canadian Northern is at work on about the same number. Thousands of men and teams are rushing work on the Grand Trunk Pacific, a number of miles which will be in operation within a few weeks and it is expected that trains will be running between Edmonton and Fort William within a year. From the south J. J. Hill is building several branches across the international boundary and he promises to lay a trunk line from Winnipeg to the Pacific coast at an early date. On the western side of the Rockies railroad construction is equally active, a bitter fight being waged by the Canadian Pacific and the Great Northern for control of several valuable mineral districts and within a year the Grand Trunk Pacific and Canadian Northern will also be engaged in the same fight.

### GRAIN PRICES (Special to the Bulletin)

No. 1 northern, \$9 1-2c; No. 2, 7 1-2c; No. 3, 7 1-2c; No. 2 white oats, 33 3-4c.

### ARGENTINE STATESMAN DEAD

(Special to the Bulletin)

Buenos Ayres, July 17.—Dr. Carlos Pellegrini, formerly president of the Argentine Republic, is dead.

### BEREL LEADER KILLED

(Special to the Bulletin)

Paris, July 17.—The consul of Salvador has communicated a note to the President confirming the announcement of the death of General Regaldo, leader of the revolutionary forces which invaded Guatemala from Salvador and adding that peace is on the point of being arranged.

### RANCHER KILLED BY LIGHTNING

Winnipeg, July 16.—A fatal accident occurred at the Battle River last Monday whereby George Roth lost his life.

Messrs. Roth and Goodfellow came over from the Medicine Hat district at the beginning of the month, bringing with them their band, consisting of a herd of cattle, and located at the Kramer ranch on the Battle river. On Monday last Roth was riding home when a heavy thunder storm came up and he and his horse were killed by the lightning. The body was not found for some time afterwards.

Sorrt. McCarthy of the R.N.W.M.P. was notified and Coroner W. W. Amos decided that no inquest was necessary. The deceased leaves a widow and two children. Much sympathy is expressed at the sad affair, as they had only been married four days when the accident occurred.

### It uses the heat while the heat's hot

One-way fire travel, in this right furnace, means the heat moves in one direction—not through a maze of sections; and THAT means you get the heat's good—all of it, in clean, HOT heat. Most furnaces don't give up the heat till it's lukewarm.

### Oxford Furnace

burns any fuel

Warm air

Yours fuel bills will be less next winter, your house amply warmer, once you see what this furnace really will save.

Burns any fuel that's really fuel, and gets all the good out of all it does

BURN PERFECT combustion—

Oxford three-sided grate-bars, built hollow, assure that they burn a lot of AIR, that's why. Easy to repair them, too—take out anyone and disturb no other.

Extra big fire-door makes it easy to burn through, big, cheap

fuel—that's a saving worth your while. Especially big ash-pit.

Let us send you a book that tells why this is the furnace you want to heat your house next winter. Or come and look over this right furnace, come and see the way it's built, see its unusual economy points, its strong construction, built to last many years and to save money every day it's used. See it really right.

It's perfectly safe, too.

TOOKE BROTHERS, MONTREAL.

913, 10th Street, Montreal.

## THE GRAND TRUNK PACIFIC TERMINAL ELEVATOR CO.

The incorporation of the Grand Trunk Pacific Elevator Co. is set by the Calgary Herald as an opportunity for an alarmist cry over the broad powers granted the Elevator Co. and for a filing at the Grand Trunk Pacific enterprise generally. The powers granted the elevator company, we are informed are too broad and may lead to a "transportation company" owning the "source of a good deal of its own traffic" the "evil which the United States is "today fighting"—a sufficiently novel view of the commercial troubles of our neighbor to warrant the attention of the Interstate Commerce Commission. In somewhat comprehensive language the readers of the Herald are told "The Grand Trunk Pacific Terminal Elevator Company authorized to do "everything but extract gold from sea-water," and, it should have added, bank notes from gold bricks.

Says the Herald:—"In the first place 'as the company's name implies it may 'erect, lease, own, operate, etc., grain 'elevators and warehouses. It may 'store and handle goods and chattels 'of all kinds, and do a general ware-house business. Grain milling and 'flour dealing come next.' All of which would appear to be possible within the field of an elevator company.

Continuing the Herald says:—"From clause 6 to clause 23 the powers conferred by the charter seem 'hardly to belong to an enterprise known as the Grand Trunk Pacific Terminal Elevator Company. The company may build ships and carry 'on the business of navigation, of a 'wrecking company, of wharvers, 'and of forwarding agents or ship brokers." All of which powers are enjoyed and exercised by every transportation system of consequence in Canada, and without which powers a terminal elevator company would be about as effective as a dairy without cows. Without the power to own and operate wharves and ships the terminal company would and must be wholly at the mercy of the owners of such facilities, which owners might very well find it to their advantage to go into the elevator business; and by possessing also the wharves and vessels put the Terminal company out of business.

Continuing the Herald says:—"This is only the beginning, however. Live 'stock is the next department of this 'vast enterprise. At first it will be 'given to raising, fattening, and dealing in cattle, sheep, horses and swine. From this bucolic vocation the promoters turn to that latest department of applied science—the development of 'water power, and the furnishing of 'the public with electric energy, light 'and heat. Timber lands may be acquired, and the lumber business carried on 'lumber and pulp and paper business. The powers of coal dealers are next 'included, and one clause actually 'seems to authorize the concern to do 'a banking or trust company business 'in the way of guaranteeing the bonds of 'other enterprises."

Admitting that these powers are broad why should they not be broad, or on what ground should they have been declined? If development is to come to the country traversed by the Grand Trunk Pacific it will come only by the investment of capital in these branches of industry. And why should

a company be deprived of so investing its capital because it bears the name of the "Grand Trunk Pacific" or because it is called an elevator company, or because the promoters of the company are also stock holders in the Grand Trunk Pacific Railway Company? The incorporation of such company is in no manner to degree the creation of a monopoly. If other companies desire to enter any or all of these fields of industry Parliament will doubtless be willing to accommodate them with powers and in other individual desire to undertake such enterprises they do not even require charters. The field is open and the incorporation of the Terminal Elevator Company, merely grants to the company the right to carry on lines of business which may be undertaken by any individual or group of individuals possessing the requisite capital. So far from being a cause of alarm the incorporation of the Terminal Company is evidence that at least one body of men propose devoting money to the development of industries which cannot otherwise be developed; which cannot be developed without the aid of the general prosperity of the country, and without whose development there can be no permanent prosperity to the country contiguous to the new railway system. If it is desirable that the country along the Grand Trunk Pacific be prosperous it is surely desirable that opportunity be given for the utilization of resources and the development of its industries.

Whatever objection there may be to granting a company powers other than or broader than its main purpose, these do not come with exceptionally good grace from the city of Calgary and of all others with least excuse from the Calgary Herald. It is the duty of the city of Calgary to say that that city owes its splendid prospects today more to the "unusual" powers granted the Canadian Pacific Railway Company than to any other commercial or industrial factor. Aside from the business generated by the interest of the railway lines the city of Calgary has not grown very few years since on the trade of a large ranching country surrounding it. But the population which a ranching country can support is comparatively small and the trade which it supplies is accordingly limited. Had these conditions remained Calgary might have very soon reached the limit of its commercial expansion. But the conditions upon which the city depended for development and prosperity were changed. It was discovered that the country upon which Calgary depended for trade could be developed from the railroads into a great industrial and to effect this change the Canadian Pacific Railway Company in the exercise of an "unusual" power began a project for the irrigation of an immense territory lying east of the city which it was claimed was especially adapted for the production of fruit. For with the irrigation of Calgary were broadened and an era of prosperity and expansion began which has probably astonished even Calgarians themselves. Had the Canadian Pacific Railway not possessed these powers aside from the original purpose of its existence the irrigation project would probably have failed. The city would never have been developed by expanding trade and its prospect today would be but little of the splendid promise with which it is filled.

Surely it is not from a city which owes so much to the "unusual" powers by a corporation that opposition should come to the granting of broad powers to other industrial corporations. And it certainly is not from a journal which has so vociferously lauded the exercise of the "unusual" powers of the Canadian Pacific Railway Company that a demand should come for a limitation of much lesser powers on the Grand Trunk Pacific Terminal Elevator Company.

## MAY ARRANGE JOINT TERMINALS

For Grand Trunk Pacific and Canadian Northern in Winnipeg

Ottawa, July 17. — Commissioners Young of the transcontinental railway, has gone to Winnipeg, and Chief Engineer Lumsden will soon follow him to arrange for the terminals between the Grand Trunk Pacific and the Canadian Northern.

### City Council Met Last Night

(Continued from Page One)

Monton Wood and Coal Co. concerning the construction of the proposed spur line on Namao avenue to the companies' mills in which it was set forth that the right to build such a spur line was granted provided they obtained the consent of the property owners affected and agreed to conform to the city by-laws governing such concession.

Up to last night the secretary had no information or letters filed from the property owners granting the request of the companies.

A sufficiently signed petition was granted to the residents of Tenth St. for a plank sidewalk 6 feet wide on east side between Victoria and Mc-Kay; also a similar petition on south side of Bellamy between Kinistino and Syndicate avenues.

The petition of the residents on Twelfth street was almost blocked by a former resolution of the council which provides that no grading or boulevarding shall be done on a street where fifty per cent. of the water connections are not made up to the street line. However, it was decided to grant the petition as it was a particular case to which the resolution was hardly applicable, and so Twelfth street between Victoria and Hardisty will be improved.

Ald. Manson reported for the special committee of the council that was appointed some time ago to enquire into the question of erecting a new isolation hospital. The committee had conferred with the Hospital association and Medical Health officers had considered plans submitted by several architects and had decided upon plans of Architect Hopkins.

A report re cement sidewalks from the city engineer was read and filed.

The question of providing larger sewer facilities along Jasper was discussed and referred to the commissioners and city engineer to discuss ways and means.

The judge's report re the Isolation hospital was laid on the table and will come up at the next meeting.

### Judge's Report on Isolation Hospital

(Continued from Page One)

8th of May he was apparently on the way to recovery. This condition was even more marked when Merkley left on the 9th. During the interval between the 9th and 14th of May, it is stated, "no qualified nurses" were in attendance and it is hard to say what occurred in this interval, but "conditions existed which should not be present." The judge does not find the patient died from any specific neglect or act of the attendants, or from the inadequate accommodation, but observes "These might be sufficient cause to produce a relapse," though it is not decided such was the case.

No conclusion is arrived at as to the real cause of the patient's relapse, and "no civil or criminal liability is fixed." The judge sees no good purpose in attempting to do so. He has found the "facts showing a condition from which evil consequences might likely follow. The probability and the possibility of such consequences even without actuality is sufficient justification for a remedy."

## MURDERER HANGS HIMSELF

Strangled Himself With a Pair of Shoe Laces

Windsor, July 17.—Eluding the vigilance of special watchers placed over him Christopher Spindelman cheated the gallows by hanging himself at Sandwich jail early this morning. His dead body was found by Turnkey Her, who was on his morning rounds. The murderer had successfully wound a pair of shoe laces around his neck, tied one end to the chain which was attached to his cot, and slowly strangled himself.

#### FOSTER'S FORECAST

Washington, D. C., July 14.—My last bulletin gave forecast of disturbance to cross continent July 15 to 19, warm wave 16 to 18, cool wave, 17 to 21. Next disturbance will reach Pacific coast about July 19, cross west of Rockies city by close of 20, great central valleys, 21 to 23, eastern states 24. Warm wave will cross west of Rockies country about July 19, reach central valleys 21, eastern states 23. Cool wave will cross west of Rockies about July 22, reach central valleys 24, eastern states 26.

This disturbance will bring the most severe weather of the month, and it will not be in good time for excursions on the water. About July 19, while the disturbance is west of meridian 90, all weather causes will begin to increase in force and all weather features in intensity. Watch the reports for the location of the storm centre about July 23 and 24 and if it is in your vicinity about that time you would better look out for squalls. I expect the storm centre at that time to be not far from meridian 90 and that dangerous storms may be expected in some parts of the Ohio valley or on the Great Lakes.

This disturbance will bring the hottest weather of July, not in all sections but east and southwest, of the storm centre's path. I expect the summer's heat will reach its apex while this disturbance is crossing the continent. My calculations indicate that the heat will be greater in northern than in southern states, higher in Chicago than in Cincinnati, cooler in Texas than in the Dakotas.

About and following July 24 the cool period will give way, temperatures will rise and less rain will fall. From July 24 to 22 the drouth sections will suffer most, and following July 22, showers will become more general. Following July 14 the weather features will lose force and it is not expected again before July 20.

#### TENDERS.

Will be received for the erection and completion of a brick Presbyterian church at Strathcona, Alta., until 12 noon on the 30th July, 1906.

Plans and specifications can be seen at Douglas Bros', Strathcona, or at the office of the undersigned.

The lowest or any tender not necessarily accepted.

H. A. MAGOON,  
Architect.

#### LOST.

On Monday, between Edmonton and Strathcona a black Eton jacket lined with black silk. Finder will please return to this office or Alberta College. Dy 108.

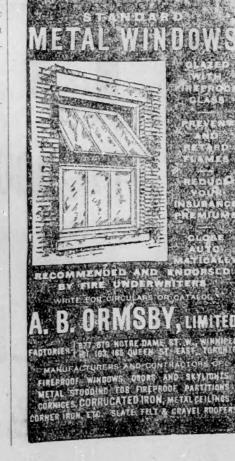

#### TO CONTRACTORS.

Tenders are invited for a trestle bridge over coulee east of Government Avenue. Plans and specifications to be seen on application at the City Engineer's office.

Tenders addressed "City Commissioners" to be delivered not later than 12th July 24th inst.

Lowest or any tender not necessarily accepted.

GEORGE J. KINNAIRD,  
Edmonton, July 17, 1906.

## Strathcona

Strathcona, July 17.—Mr. Taylor of the Edmonton Electric Light staff is superintending the installation of electric appliances in town.

Mr. Solid is now town electrician and fills the situation lately occupied by Thos. F. Powers, who has formed a partnership with Mr. Goss in the machinery and implement business, and who have an office on Whyte Avenue.

Mr. Ballantyne, late of Whyte has joined the town hall staff.

H. Wilson of the Strathcona Real Estate Co. has a new residence in a house which is being erected west of the Edmonton Milling Co. on West Broad street. Present appearance indicate a handsome modern structure.

Mr. Sache's new residence on the Edmonton road is nearing completion.

This structure has a fine site as it commands a fine view of the river and slope of the capital.

Mr. A. McDonald, brother of J.

H. McDonald of the Plaza Hotel, was in town last week.

Mr. McDonald, who is a classical professor in the Baptist College, Woodstock, is spending his vacation among his many friends in the west.

He is a son of the Rev. Mr. McDonald of Leduc and formerly of Strathcona.

Mr. Smart of Ottawa was in town today for a few days.

He has been in the west for some time looking the province over.

**Advertise In The Bulletin****Farmer's Page****THE DAMAGE FROM CUT WORMS**

The department of agriculture issued the second crop bulletin of the year 1906 yesterday.

The information is gleaned from over 400 crop correspondents, and the minister stated that every report was accurately and intelligently filled out. This branch of the service is still in its infancy and will increase in importance and value as the farming and business community become more thoroughly acquainted with it.

Among other things the report says: "It is interesting to note that no damage from hail storms has yet been reported. Vigorous growth has been promoted by the very favorable weather conditions which have prevailed throughout the entire crop area since seeding time and it may be probable that larger average yields than those herein given will be the rule at threshing time. The copious rainfall during May and June has assured for the stockmen abundant crops of both tame and prairie hay, and has so favored all crops that they are on the whole more advanced than at this date last year despite the fact that at seeding time, and immediately following, the ground was very dry."

Considerable damage has this year been done to crops by the cut worms, their ravages being undoubtedly augmented by the lack of rain in the fall of 1905 and in the early part of spring. Immediately it was brought to the notice of the department that this pest was damaging grain and garden crops the following bulletin prepared by Mr. A. Mitchell, Chief Weed Inspector, was widely distributed:

"Cutworms are the larvae of certain moths, their habit being to feed at night and in the daytime remain an inch or so under the surface of the ground. A thorough harrowing will turn many of them up to the surface, and if this is done on a warm, sunny day, and the harrow followed by a roller, a good many of the creatures will be crushed.

"For gardens, beet fields and other small areas, Dr. Fletcher, Botanist and entomologist of the Dominion Experimental Station, recommends placing here and there, bundles of any succulent weed or other vegetation, such as alfalfa, which have been dipped in a mixture of paris green and water; one ounce to a gall. The cut worms eat the poisoned plants, then turn themselves and die. In hot, dry weather these bundles should be put out after sundown, and a shingle may be placed on each to keep it from rolling.

"Cabbages and other garden transplants should be planted with a piece of stout paper or tin around them. This prevents the caterpillars getting to the plants. If paper is used, it should be wrapped loosely around the stem, just above the root so that it will not interfere with the growth of the plant, and may be easily lifted away after the plants are established and the danger of attack is over. Hand-picking or digging out the cut-worm whenever a plant is seen to be cut off, should of course, always be practised.

"Dr. Fletcher says the most remarkably effective remedy against cutworms is poisoned bran mash. This is made by mixing half a pound of paris green with fifty pounds of slightly moistened bran.

"To make it, dampen a little of the bran with water in which a little sugar has been dissolved, dust on some of the paris green and go on adding bran, paris green and water till the mixture is made up. When ready for use it should be run easily through the fingers without adhering.

"In gardens a little of this can be sprinkled by hand around such plants as are liable to attack. When crops are planted in rows a convenient way is to make the mixture rather dry and then distribute it by means of a Planet Junior or other wheel seeder.

"In growing crops the mixture can be distributed by means of a shingle and can be easily thrown to a distance of twenty feet.

"Care should be taken to prevent domestic animals having access to the poisoned bran, although cases of injury from the mixture are extremely rare. Indeed, it is questionable if there is really an authentic case on record of even poultry being poisoned by this remedy, yet some precaution is always wise."

Reports have been received from all parts of the province that the paris green treatment where used according to instructions, was entirely successful in exterminating the pest.

ALBERTA WINTER WHEAT  
 According to a Bulletin of the Department of Agriculture in nearly all cases where winter wheat was sown late the crop was either partially or wholly winter killed, and although a much larger area has been sown it is probable that the total yield will not surpass that of last year. It is particularly noticeable that the grain sown in July and August is in all cases looking well and will probably yield heavily. This year's partial failure of the winter wheat crop should be a lesson to those farmers who claim they can sow winter wheat late and obtain a good crop, and should impress upon those showing that the crop the necessity of early sowing if they wish to obtain heavy yields. There is a winter wheat which is growing in favor with millers on both sides of the Atlantic.**WESTERN ITEMS**

Rosthern, July 12.—The little ten year old daughter of David Reddekopp, living two miles north of Hague was struck by lightning during Monday evening's storm and instantly killed.

Prince Albert, July 12.—Word was received here today that a rumor was in circulation in Saskatoon to the effect that there are 40 cases of smallpox in this city. Dr. Reid, medical health officer seen by your correspondent, said there was absolutely no foundation for the rumor. There is no case of smallpox, chickenpox or any other infectious disease in the city at present, said Dr. Reid and there has been nothing that looked anything like smallpox since a very mild case of chickenpox, which was brought here by an immigrant early in April. "The only other cases of infectious disease we have had in the city this year," said the doctor, "have been one of measles and one of croup, both very mild. I am having the pest house repaired and moved to a better location because there is smallpox in other parts of the country, and if it should come here, I want to be ready for it, and perhaps that may have something to do with starting the rumor."

Saskatoon citizens are urging the G.T.P. to enter their city by a spur line. Recently a delegation from that energetic city consisting of Mr. Hanson, supported before the Government by Hon. Walter Scott, and Geo. E. McCrane, M.P., interviewed Mr. Frank Morse, General manager of the Grand Trunk Pacific who promised that the spur line will be furnished into Saskatoon as soon as the main line of the G.T.P. is ready for traffic. Surveyors will be put to work at an early date to locate the line.

Lethbridge News: Those of us who are unfamiliar with the actual operations of a modern mine generally picture it as a series of underground channels where all the work is done by a number of men. Almost the only machinery we think of is the bucket or cage for hoisting men which figures in so many anecdotes. The reality is somewhat different. At the mine here there is a vast quantity of huge machinery. The general appearance above ground is that of some enormous manufacturing works. There are six gigantic boilers a similar number of monster engines, with dynamos on a similar scale. Underground again, the cars are hauled by wire cables run by steam engines; and the coal is mined by compressed air cutters. The wire cables are eight miles long, and are run by one of the powerful engines above ground. An electrical system controls the mine underground to give signals to the engines by means of a bell system. The compressed air is conducted through tubes which are of similarly great in length. About \$75,000 has been expended this year. The building in which the air compressor engines are situated has been enlarged to twice its original size, and contains a boiler containing 300 tons of concrete has been built for a new air compressor engine of more than double the capacity of the present one. The fan will be moved to the river bottom and operated by a 250 horse power electric dynamo run by a 300 horse power engine, with a steam plant in reserve in case of accident. more boilers being installed.

Three room houses and kitchen on nice lot on Morris street. Half cash. A good chance for a working man.

The board of trade will meet in the city council chamber tomorrow afternoon at 3:30.

The Braemer Social Circle will give a dance in Houston's hall on Thursday evening.

The young people of Queen's Avenue church will hold an ice cream social on Monday evening next.

Fire on Sunday damaged P. Burns' packing plant at Calgary to the extent of \$3,000.

Mrs. J. A. Trimble and son, W. O. Trimble, left for Bant. They will be absent two weeks.

The trial and investigation of the isolation hospital charges occupied 5 days and 17 hours. The Judge's fees therefor were \$151.

A raft of lumber, containing 35,600 feet was brought down today by D. R. Fraser & Co. from their camp seventy miles west of the city.

The bakers and bartenders of the city will play a game of baseball on the baseball grounds tomorrow evening.

All Saints' Sunday school will hold their annual picnic tomorrow in Great's flats. The children will leave the church at 2 o'clock in the afternoon.

First Baptist Sunday school will hold their annual outing tomorrow at the Hermitage. Busses will leave the church at 9 o'clock in the morning.

Work has begun on the new trunk sewer and a Carson ditcher is being set up with which the excavation will be carried on.

Mr. Fred Underhill, shoe manufacturer of Aurora, Ont., and Dr. Richardson, of New Market, Ont., are in the city. They have been making an extended trip through the west.

The revenue collected at Edmonton customs house has almost doubled during the past year. The amount is \$104,416.04 for 1906 compared with \$57,994.87 for 1905.

Mr. J. D. A. Tripp, teacher of piano in the conservatory of music, Toronto, is in the city conducting the examinations of pupils of Edmonton taking the course in that institution—conservatory course.

Mr. Geo. Irving, representing the National Meter Co., of Chicago with headquarters at Winnipeg is in the city on a business trip, and called upon his old friend Mr. Hargreaves at the city hall today.

The Grace church Sunday school picnic was held yesterday on the Government property in the east end of the city. There was a large attendance and the afternoon and evening were spent in games, long tables were erected at which lunch was served.

The ladies of St. Anthony's parish, Strathcona, are holding a grand picnic tomorrow on Walters flat, near the ferry landing on the Strathcona side of the river. The attractions will be many and the fun will be good. Meals will be served from 5 to 7:30 p. m. Buses free from Edmonton and Strathcona. Admission to grounds free.

The annual meeting of the council of the Pharmaceutical association was held at Banff, Thursday, Friday and Saturday of last week. James Findlay, Calgary, president of the council, presided. The other members present were: W. Pennington, Moosomin, registrar; J. Higginbotham, Lethbridge; R. Martin, Regina; A. D. Ferguson, Wolseley, and J. F. Johnston, Saskatoon. H. Gatz, Red Deer, and G. H. Grayson, Edmonton, members of the association, were also present.

Mr. C. V. Semerad, late of St. Elmo Hotel, shot a bear and cub on the farm of Mr. Oscar Page, of Winterburn, about twelve miles northwest of the city. The animals were brought to the city this morning by Mr. A. Dandeneau and his son. The old bear weighed 200 lbs. dressed and the cub 34 lbs. Mr. Semerad was out looking at his horses which are pasturing at Mr. Dandeneau's when Page's son came running across the fields to inform them a bear was eating a young calf, whereupon Mr. Semerad and Peter Dandeneau hurried over and despatched Mrs. Bruin with one shot.

C.N.R. PASSENGER DERAILED

The regular passenger from the east on the C. N. R. jumped the track at Oliver this morning, and three or four coaches were landed in the ditch. No one was injured. The accident was due to a soft roadbed, the track sinking in the earth. Traffic was delayed for several hours.

### SOCIAL AND PERSONAL

Miss Kate Maloney left this week to visit Mr. and Mrs. Mann, at Hobson's Agency, Ponoka.

Mrs. A. Ogilvie and Lorne York left for White Horse Lake yesterday where they will sail their new launch.

Mr. and Mrs. Johnson Walker accompanied by Miss Walker leave this afternoon for Vancouver, where a pleasant holiday of two months will be spent.

Miss Gertrude Thompson of 104 St. Vincent street left on Saturday for Vancouver, where she will visit her uncle for some time and later go to Edmonton, where she has accepted a position.

On Thursday of last week a small coterie of friends took a farewell tea with Mrs. and Miss Thompson at their home, and wished the latter the pleasantest of times in the far west. Several pretty gifts were presented to the gentle and popular lady by friends before her departure.

Toronto Saturday Night.

DIED.

Carson—At the Sanitarium, Edmonton, on Tuesday, July 17th, 1906, Rev. T. C. Carson, of Namao, aged fifty-one years.

The funeral takes place tomorrow afternoon. The service will be held in McDougall church at 2 o'clock and interment made in the Edmonton cemetery.

Rev. T. C. Carson was born in Russell county, Ontario in 1855. He was educated at Victoria College, then situated in Coburg. For twenty years Mr. Carson was a minister of the Methodist Episcopal church in the United States. About five years ago, failing health forced his retirement from the ministry and he removed to Alberta taking up his residence at Namao. For a time his health appeared to improve but about a year since again failed.

In February last a decided turn for the worse occurred and for the past four weeks he has been under medical attendance in the Sanitarium here. Carson was a brother of the late W. F. Carson, public school inspector of London, Ontario. Two sisters Mrs. Hunter and Mrs. Bailey and four brothers, Messrs. Charles, J. A., W. A., and S. A., reside at the Steepleton, Rev. C. Buchanan, superintendent of Methodist missions in Alberta and a college friend of the deceased is expected to arrive on tonight's train and conduct the service tomorrow.

The revenue collected at Edmonton customs house has almost doubled during the past year. The amount is \$104,416.04 for 1906 compared with \$57,994.87 for 1905.

Mr. J. D. A. Tripp, teacher of piano in the conservatory of music, Toronto, is in the city conducting the examinations of pupils of Edmonton taking the course in that institution—conservatory course.

Mr. Geo. Irving, representing the National Meter Co., of Chicago with headquarters at Winnipeg is in the city on a business trip, and called upon his old friend Mr. Hargreaves at the city hall today.
